Billions Lost The American Tech

"Billions Lost" would be excellent supplemental reading for any political science or computer science course as well as for Americans concerned about our country's dependency on foreign technology labor. This non-partisan book doesn't align itself with either political party.

Amazon.com: Billions Lost: The American Tech Crisis and ...

Gamm connects the dots between seemingly disparate events and facts, and outlines with stunning clarity the perfect storm that created a massive exodus of tech industry jobs from the U.S. Extensively researched and firmly apolitical, Billions Lost explains how the offshoring of millions of U.S. technology jobs opened a gateway that places our economy, our national security, and our educational systems at risk.
