Lazy portfolios are designed to perform well in most market conditions. Most contain a small number of low-cost funds that are easy to rebalance.They are "lazy" in that the investor can maintain the same asset allocation for an extended period of time, as they generally contain 30-40% bonds, suitable for most pre-retirement investors.. Note: Historical performance for many of the "lazy ...

### Lazy portfolios - Bogleheads

The emphasis, nay, obsession, with retirement in the Bogleheads forum strikes me as reflecting how many of the members waste most of their productive years working jobs they hate. This, in turn, pushes them into high cost lifestyles where they try to replace the internal satisfaction they have sacrificed with things they can buy.
